## ABOUT ME

I interned as Frontend Web Developer at Acumen Bizcorp, I have developed user-facing features and ensured the efficiency of applications using Angular, JavaScript, and TypeScript. This shows dedication to learning and adaptability is reflected in my diverse experiences, from logistics operations to part-time roles in customer service. My education has up to three years of experience align well with the requirement for a motivated and adaptable team player who can facilitate the delivery of quality solutions. I am eager to contribute my skills, and the same time learn, progress, and gain experience on new tech stack opportunities.
